INFORMATION OF THE SUBSTANCE/PREPARATION AND COMPANY

1.1. Product name
Quantia Kappa/Lambda Light Chain

Catalogue No. 108450025

Kit components (kR1) - Kappa Activation Buffer , (λR1) - Lambda Activation Buffer
(kR2) – Kappa reagent , (λR2) – Lambda reagent
(kS) - Kappa Calibrator , (λS) – Lambda calibrator
Package Insert , Quantia Graph Paper

1.2. Intended use
In Vitro Diagnostic Use.

1.3. Company
Tulip Diagnostics (P) Ltd.
Plot Nos. 92/96, Phase II C,
Verna Industrial Estate,
Verna, Goa 403 722
INDIA
Telephone : +91-832-6624555
Fax : +91-832-2783511
E-mail : tulipvkn@sancharnet.in

1.4. In emergencies
Call your local emergency center

COMPONENTS AND HAZARDOUS INGREDIENTS

3. HAZARDS IDENTIFICATION

According to 1999/45/EG, the preparation is classified as dangerous.

<table>
<thead>
<tr>
<th>CLASSIFICATION PREPARATION</th>
<th>RISKS</th>
</tr>
</thead>
</table>
| Xn; R22, S23-46-61         | Harmful if swallowed

4. FIRST AID MEASURES

Eye contact: - Rinse immediately with water
             - Do not apply neutralizing agents
- Consult a doctor/medical service

**Skin contact:**
- Rinse with water
- Consult a doctor/medical service if irritation persists

**After inhalation:**
- Remove the victim into fresh air
- Unconscious: maintain adequate airway and respiration
- Consult a doctor/medical service if breathing problems develop

**After ingestion:**
- Never give water to an unconscious person
- Wash out mouth with water provided person is conscious
- Do not induce vomiting
- Consult a doctor/medical service if you feel unwell

### 5. FIRE FIGHTING MEASURES

**Suitable extinguishing media:**
- All non combustible extinguishing media allowed
- For surrounding fires: all extinguishing media allowed

**Unsuitable extinguishing media:**
- No data available

**Special exposure hazards:**
- On heating/burning: formation of small quantities of nitrous vapors, carbon monoxide, carbon dioxide

**Instructions:**
- Take account of toxic firefighting water
- Use firefighting water moderately and contain it

**Special protective equipment for firefighters:**
- Heat/fire exposure: compressed air/oxygen apparatus
- Heat/fire exposure: gas-tight suit

### 6. ACCIDENTAL RELEASE MEASURES

**Personal protection:** see 8

**Environmental precautions:**
- Prevent soil and water pollution
- Substance must not be discharged into the sewer
- Contain leaking substance, pump over in suitable containers
- Plug the leak, cut off the supply
- Dam up the liquid spill

**Clean-up:**
- Take up liquid spill into absorbent material
- Scoop absorbed substance into closing containers
- Carefully collect the spill/leftovers
- Clean contaminated surfaces with an excess of water
- Wash clothing and equipment after handling

### 7.0 HANDLING AND STORAGE

**Handling:**
- Observe normal hygiene standards
- Do not discharge the waste into the drain
- Remove and clean contaminated clothing

**Storage:**
- Provide for a tub to collect spills
- Meet the legal requirements
- Keep away from: heat sources, acids
- Storage temperature: see component label

**Specific purposes:**
- NA

8.2 Control of Exposure

Exposure to persons
- Insufficient ventilation: wear respiratory protection
- Gloves
- Face shields
- Protective Clothing

Exposure to environment
- N; R50-53 Very toxic to aquatic organisms.
- May cause long term adverse effects in the aquatic environment
- No data available
- Log Pow = NA
- BCF = NA

Not Readily degradable

9.0 PHYSICAL AND CHEMICAL PROPERTIES

(kR1 & λR1) - Activation Buffer: Clear colourless liquid
(kR2 & λR2) – Kappa and Lambda reagents: Clear colourless liquid
(kS & λS) - Kappa and Lambda Calibrators: Lyophilized powder

10 STABILITY AND REACTIVITY

Stability: The component is stable until expiry date if stored in specified conditions (see label)
Reactivity/Hazardous decomposition products: No hazardous decomposition products are formed in high quantities
Conditions/Materials to avoid: Keep away from metals and acids (Component contains azide)

11 TOXICOLOGICAL INFORMATION

Sodium Azide:
Acute toxicity:
- LD50 oral rat: 27 mg/kg
- LD50 dermal rabbit: 20 mg/kg
Acute effects: Harmful if swallowed
Chronic toxicity: Carcinogenicity (TLV) : A4

Routes of exposure
Ingestion, inhalation, eyes and skin
Caution! These components contain a substance that is absorbed through the skin (sodium azide).

12 ECOLOGICAL INFORMATION
Aquatic toxicity
Sodium azide: - LC50 (96 h) : 0.8 mg/l (SALMO GAIIRDNERI/ONCORHYNCHUS MYKISS)
- LC50 (96 h) : 0.7 mg/l (LEPOMIS MACROCHIRUS)
- LC50 (48 h) : 9 mg/l (GAMMARUS SP.)

Other information
- Effect on the ozone layer: Not dangerous for the ozone layer (1999/45/EC)
- Greenhouse effect: No data available
- Effect on waste water purification: No data available

13 WASTE DISPOSAL CONSIDERATIONS

Disposal methods:
- The positive and negative controls are potentially infectious. It should be disposed of following established safety procedures and local regulations.
- The component must be considered as hazardous waste. It should be disposed of following local regulations.
- Sodium azide reacts with lead and copper plumbing forming highly explosive metal azides.

14 TRANSPORT INFORMATION
No restrictions.

15 REGULATORY INFORMATION
Classification according to directives 67/548/EEC, 1999/45/EC.

Contains sodium azide

Xn
R22-S23-46-61
NaN3

R22: Harmful if swallowed
S23: Do not breathe vapour
S46: If swallowed, seek medical advice immediately and show this container or label
S61: Avoids release to the environment. Refer to special instructions/safety data sheets.
16 OTHER INFORMATION

This product is designed for use by professionals.

The animal source material included in this kit are considered to be free from risk for BSE/CJD & other zoonoses and judged to be non-existent based on:
The material used from animal origin are sources from non – BSE countries (Certificate available). But, handling of reagents, serum or plasma specimens should be in accordance with local safety procedures.

The human source material included in this kit have been tested by European approved and/or FDA approved methods and found negative for HBsAg, anti-HCV and anti-HIV-1 and 2. No known method can offer completed assurance that human blood derivative will not transmit hepatitis, AIDS or other infections. Therefore, handling of reagents, serum or plasma specimens should be in accordance with local safety procedures.

Risk phrases referred to in paragraph 2 & 3:
R22: Harmful if swallowed
R28: Very toxic if swallowed
R32: Contact with acids liberates very toxic gas
R50: Very toxic to aquatic organisms
R53: May cause long-term adverse effects in the aquatic environment

The information provided on this MSDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text.
It remains the user’s own responsibility to make sure that the information is appropriate and complete for his specific use of this product. The user is also responsible for observing any laws and applicable guidelines.
